Düsseldorf, 25th of August 2023

New Bürstner model year: more models, two surprises, new Copa and home from home feel optimisation in detail

- Surprise semi-integrated low profile Lyseo TD concept vehicle with push-out lounge
- Presentation of surprise model Habiton concept vehicle in the new vehicle segment micro campers
- New Copa: now based on Ford Tourneo Custom V710 chassis
- Lineo C: new pop-top roof and more functional rear window solution
- New pop-top roof for Campeo and Eliseo camper vans
- Caravans: My Bürstner app for all and presentation of a new drop-down bed generation

Düsseldorf. Recreational vehicle manufacturer Bürstner, based in Kehl, Germany, already presented what almost amounted to an "explosion" of innovations at Caravan Salon 2022; astonishingly, the company will now be showing **two concept vehicles** at this year's Salon that take the Bürstner brand's **expertise when it comes to comfortable habitations** even further:

The micro camper concept vehicle **HABITON BY BÜRSTNER**, based on the popular Renault Kangoo, which could unlock a vehicle segment so far not covered by the brand manufacturer Bürstner. It represents a new "style of camping" for trend-conscious singles, couples, and families.

The vehicle is suitable for everyday use and based on a modular concept. Its highlight is an **inflatable roof tent** that is fully integrated into the vehicle silhouette thanks to an aerodynamically optimised and beautifully shaped roof tent hardtop.

The second surprise is the "Lounge" concept vehicle with a lounge dinette that can be pushed out sideways. This solution turns the vehicle into a lounge on wheels that offers maximum living room and bedroom comfort on the road.

Bürstner motorhome model updates

For the new season, two further layouts (T 569 and T 590) will be added to the range of **Lineo** T layout choices, now five in total. The **Lyseo TD** layouts have also been modified.

Camper vans: improved pop-top roof and a new rear window in the Lineo C

From now onwards, the model ranges **Campeo** and **Eliseo** will come with a new pop-top roof. The impressive improvements include a panorama feature, a roof vent for better ventilation, a larger sleeping area, a swan neck light with a USB socket, an aluminium bed base for more sleeping comfort and better water ingress protection. Thanks to an electric locking mechanism, it is easy to lower and elevate.

A room climate that makes the vehicle truly feel like a home from home is important. That is why the **Lineo C** is now available with a new rear window that can also be opened with the bike carrier in situ to properly air the habitation area. Also new in this model range: the pop-top roof.

New urban camper Copa

From the new season onwards, the well thought out versatile model **Copa** offers the customers even more of that "wohnfühlen" home from home feel that is typical for the brand. Bürstner's new version of its bestseller Copa will be based on the new Ford Tourneo Custom V710 chassis. The two already existing layouts, C 500 and C 530, have been adapted for the new chassis and developed further. Initially, it will be on offer with two drive versions based on the diesel engine with front and four-wheel drive.

The model range **Playa Limited**, launched in 2022, can now also be ordered as the C 530 with a washroom.

Bürstner caravans now even more comfortable

From now onwards, the My Bürstner Information App is on offer for all Bürstner caravans, i.e., also for the entry-level models. The smart app increases the user comfort, as various vehicle data can be monitored via a smartphone. In future, the Bürstner camper van extra pack "Black Forest" will also be available for the Premio model ranges. In addition, the inventor of drop-down beds in caravans has developed a new Bürstner caravan drop-down bed generation that is even easier to operate.
